

Kansai / US Greentech Forum: Ultrasolar Technology Headlines Osaka Greentech Forum

February 19, 2014

By: Darryl Parker

OSAKA, JAPAN KANSAI / US GREEN TECH FORUM on March 3, 2014, has selected Ultrasolar Technology' Santosh Kumar as one of the American Business Executives for exchanges with Osaka business professionals for further business exchanges in the field of Green Technology. Ultrasolar Technology was selected as a business with unique products and/or technologies that could bring them to Osaka. They have organized this business exchange program to build technology/capital/business alliance between the USA and Japan.

This event is aimed to promote further business exchanges in the field of Green Technology between Kansai and USA and is organized by the following organizations:

Organizers:

Sponsors:

- Osaka Business Investment Center
 - Osaka Chamber of Commerce and Industry (OCCI)
 - O-BIC: to invite & support foreign investment to Osaka; formed by OCCI, Osaka Prefecture and Osaka City)
 - Global Connect Program (GCP, one of the Projects of 'Project NEXT', to promote International relations by Kansai Bureau of Economy, Trade and Industry; managed by OCCI)
 - Industrial Scholarship Center (ISC Fund managed by OCCI, Osaka Prefecture and Osaka City)

Co-Sponsor:

- Osaka Prefectural Government

Supported by:

- Japan External Trade Organization (JETRO) Osaka

Mr Kumar will focus his involvement on bringing the Ultrasolar Technology to Japan where the company has made in roads with high profile customers and business partners. Osaka Business Investment Center met Mr. Kumar in 2013 at Solar Power International in Chicago and reviewed Ultrasolar's competition in Start UP Alley where the company took home the third place prize.
